

Accomplishments

- Implemented responsive design
- Cleaned up/refactored code for handling record data
- Created mockups of submission form design

Next Week's Plans

- Implement the admin portal with basic styling
- Start on data visualization: integrate D3.js to show some basic charts on the archive

This Week's Plans

- Create the submission form and connect to database
- Start on admin approval mockups
- Convert deprecated Google Maps API module

Risks/Help Needed

- No risks
